DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 18-27, drawn to a method.

Group II, claim(s) 28-34, drawn to an apparatus.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I and II share the same technical features of "CVD coating of workpieces wherein the workpieces are coated in a coating room, arranging coating granules near the workpiece, heating the coating room to a process temperature, and introducing a process gas". These do not make a contribution over the prior art since Punola et al (US 5462013) teaches a CVD system for coating workpieces including coating the workpieces in a coating room, arranging coating granules near the workpiece, heating the coating room to a process temperature, and introducing a process gas (Col. 4, lines 20-67, Fig.2). Thus, the common technical features of Groups I and II do not constitute as special technical features.

A telephone call was made to Robert Grabarek Jr. on 4/15/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 1792

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
